- **Ord Valley Muster** (WA, May)
- **Head On Photo Festival** (NSW, May)
- **Savour Tasmania** (TAS, May)
- **Kangaroo Island FEASTival** (SA, May)

Caring for pets

Caring for a feline friend in the family home can present some challenges, but if you're pet sitting for a cat or kitten you can start a happy relationship with these useful tips.

- **Consider the home from your cat's perspective:** Look at potential hazards and breakables that could cause your pet harm when they're inside, exploring your home. Try and remove treasured breakables from places the cat may walk through and cover or move telephone cords and computer cables so the cat isn't tempted to consider them tasty chew toys.
- **Develop cat friendly habits:** You may want to think twice before leaving the second storey window open with a purring friend around. Developing cat friendly habits will ensure your feline friend is safe and give you peace of mind.
- **Equipment basics for cats:** Cats love to scratch and have a place to call their own, so it's best for them to have a nice bed in a special place and also a scratching post to save furniture and doors. Kittens especially are very playful, so toys are a must for any cat-loving household.

With a bit of careful planning and mindful preparation, your feline companion will love sharing the home with you and become a friend for life.
