## Caring for Pets: Pet Dental Health

Just like us, our pet's teeth need to be cared for to ensure they remain happy and healthy. There are various ways that you can keep your dog or cat's teeth healthy and clean. Here are just a few hints, but if you want more information check out [Vetico](#) for further tips.

**Chews:** Chews allow your dog or cat to enjoy eating meat without the effect of digestive and oral hygiene problems. As they chew these tasty snacks, the chew will clean their teeth.

**Treats:** There are some treats that are available that clean your pet's teeth as well as provide balanced nutrition.

**Vet Check-Ups:** Regular check-ups at your local vet can help keep up the oral health of your pet. A check-up can spot, prevent, and treat oral health problems such as a fractured tooth, cavities or gum disease before they get worse.
