

May You Have Good Fur-Fellows

Many of the Mindahome house and pet sitters we speak with tell us their stories of new fur-friends, places they've seen and how thankful they are that so many home and pet owners welcome them into their homes to share their lives and beloved pets.

In this edition of Mindahome's e-newsletter, we've share the story of Veronica, a Mindahome house and pet sitter who sketches the pets she cares for as thank you gifts for the pet-parents.

We know many more of our house and pet sitters do something special for the home and pet owners that they sit for, so if you'd like to share your special gesture of thanks, send an email to maria@mindahome.com.au.

As the weather cools down even further, don't let your inspiration to explore more of the country on house sits freeze over.

Get online and find many [amazing places to house and pet sit across Australia](#) and experience something new by living like a local .

Don't forget to tag @Mindahome in your house and pet sitting social media posts - we'd love to see what you get up to.

Enjoy House and Pet Sitting!

Fur-Ever Friends Forever

Veronica spends hours sketching the pets she cares for on her house and pet sits. And then she leaves the pet-parents the original sketch as a thank you gift. You can't get any better personalised care and attention than this! [More...](#)

5 Cool Ways to Spoil for Fur-Friend

The human and animal bond is so special - let's celebrate it! Whether it's your fur-friend's birthday or adoption day, or just because, try these cool ideas to spoil your fur-friend! [More...](#)

Top Spots

Check out these last minute house and pet sits in May. If you're after something a little different and off the beaten track, these positions could be just what you're looking for. You can also browse hundreds of [positions listed online](#).

Yangebup, Western Australia

During this house and pet sit in Yangebup in Western Australia, you will be caring for two dogs and two chickens. One dog is 18 years old and blind and deaf. The other is a 7 year old kelpie who loves having a human around to keep him company. The chickens, Kentucky and Satay, are just happy to supply eggs in return for their food. The house is easy maintenance with retic for the gardens and the pool is cleaned by a pool cleaner. There are also opportunities to house sit in this location in July and August. Find out more about [this 5 day - and future - house and pet sits in Yangebup in Western Australia](#).

Point Turton, South Australia

A wonderful opportunity for those passing through South Australia wanting to experience something different and get away from it all. This 9 day house and pet sit in Point Turton in South Australia offers a two bedroom home with study - perfect for those who can work from home - and beautiful views of the bay. The home is located close to the Tavern, boat ramp, jetty and has a general store within walking distance.

The supermarket, chemist, and post office are only 5km away at Warooka 5km away. Find out more about this [house and pet sit in Point Turton, South Australia](#).

Pet Health: Autumn Pet Considerations

It's the time of year when we're all feeling a little lack-lustre, a little tired and, well, just unmotivated. Our pets are at risk of feeling the same way, so here are some things to consider as the cool weather gets even cooler, to ensure the health and well being of our pet-pals.

Monitor Food and Exercise

As it gets cooler, our pets need more energy to stay warm. So especially for those pets who love the outdoors and running around, you may be tempted to feed them a little extra to keep their energy levels high. Just be aware of the amount of food your pet is consuming in relation to the amount of exercise that they're doing. You don't want your pet to reach the end of winter with excess weight which could cause other health concerns.

Watch Out for Ticks

The fallen Autumn leaves are just calling out to our fur-friends to have a roll around in and it may look like fun. Although not that common in the cooler months, it's always a good idea to still be mindful of the possibility of ticks lurking, so be sure to keep your pet's tick prevention up to date.

Watch Out For Fungi

If you tend to enjoy your daily walk, or live, in damp wet areas, scan the places where your pet goes to for fungi. Mushrooms can pop up in damp areas and could catch the eye of your unsuspecting fur-kid. But some fungi can be harmful to our pets, so be sure to seek advice from your vet if your pet starts showing unusual symptoms or behaviours.
